

West Midlands Combined Authority Poll

10/10/2018

Prepared on behalf of the Fawcett Society

Fawcett 
Equality. It's about time.

Methodology

Fieldwork Dates

4th – 9th October 2018

Data Collection Method

The survey was conducted via online panel. Invitations to complete surveys were sent out to members of the panel. Differential response rates from different demographic groups were taken into account.

Population Sampled

All residents aged 18+ living in the West Midlands Combined Authority

Sample Size

511

Data Weighting

Data were weighted to the profile of all adults aged 18+ in the West Midlands Combined Authority. Data were weighted by age, sex and region. Targets for the weighted data were derived from Office for National Statistics 2011 Census data.

Margin of Error

Because only a sample of the full population was interviewed, all results are subject to margin of error, meaning that not all differences are statistically significant. For example, in a question where 50% (the worst-case scenario as far as margin of error is concerned) gave a particular answer, with a sample of 511 it is 95% certain that the 'true' value will fall within the range of 4.2% from the sample result. Subsamples from the cross-breaks will be subject to higher margin of error, conclusions drawn from cross-breaks with very small sub-samples should be treated with caution.

Question presentation

All data tables shown in full below, in order and wording put to respondents, including but not limited to all tables relating to published data and all relevant tables preceding them. Tables for demographic questions might not be included but these should be clear from the cross-breaks on published tables. In all questions where the responses are a list of parties, names or statements, these will typically have been displayed to respondents in a randomising order. The only questions which would not have had randomising responses would be those in which there was a natural order to maintain – e.g. a scale from “strongly agree” to “strongly disagree”, a list of numbers from 0 to 10 or questions which had factual rather than opinion-related answers such as demographic information. “Other”, “Don't know” and “Refused” responses are not randomised.

Not all questions will have necessarily been asked to all respondents – this is because they may be follow-on questions from previous questions or only appropriate to certain demographic groups. Lower response counts should make clear where this has occurred.

Data were analysed and weighted by Survation.

West Midlands Combined Authority Poll
Prepared on behalf of Fawcett Society

Table 1
Q1. By Normal Weighting
Q1. The West Midlands Combined Authority is a group of 18 local authorities and four local enterprise partnerships. It is led by a board of 33 members which includes the Mayor, local councillors, and business leaders. They make important decisions about the area. Out of those 33 members, how many do you think are women? Please make your best guess if you are not sure.

Base: All Respondents

West Midlands Combined Authority Poll
Prepared on behalf of Fawcett Society

Table 2
Q1. By Normal Weighting
Q1. The West Midlands Combined Authority is a group of 18 local authorities and four local enterprise partnerships. It is led by a board of 33 members which includes the Mayor, local councillors, and business leaders. They make important decisions about the area. Out of those 33 members, how many do you think are women? Please make your best guess if you are not sure.

Base: All Respondents

West Midlands Combined Authority Poll
Prepared on behalf of Fawcett Society

9 Oct 2018

Table 3
Q2. By Normal Weighting
Q2. Out of the 33 members of the Combined Authority, 3 are women, which is less than 10 percent. To what extent do you agree or disagree with these statements?
The lack of women on the West Midlands Combined Authority means that issues that affect women are less likely to be discussed

West Midlands Combined Authority Poll
Prepared on behalf of Fawcett Society

Table 4
Q2. By Normal Weighting
Q2. Out of the 33 members of the Combined Authority, 3 are women, which is less than 10 percent. To what extent do you agree or disagree with these statements?
The lack of women on the West Midlands Combined Authority means that issues that affect women are less likely to be discussed

Base: All Respondents

West Midlands Combined Authority Poll
Prepared on behalf of Fawcett Society

9 Oct 2018

Table 10
Q5. By Normal Weighting
Q5. Out of the 33 members of the Combined Authority, 3 are women, which is less than 10 percent. To what extent do you agree or disagree with these statements?
The Mayor should take action to make the West Midlands Combined Authority more gender balanced

Base: All Respondents
